

## Make It Green Soils and Ammendments in stock Aug 19, 2021

Please come to the store, give us your order and we'll bring you the product. We have opened up a large area for in-person shopping but you will still need to ask us for most of these products (much as it has been in the past) as they are not suitable for outside (even covered) display. The same process is used when you buy soils. Please place your order at the gate or give it to the "open area" cash when paying for you plants and product. We will not be doing online orders for fertilizers, soils, pest control products and décor.

If you have questions, please email [info@makeitgreen.ca](mailto:info@makeitgreen.ca)

Description	Size	Price	In Stock?
