

## Herbs and Veggies in Stock May 2, 2021

In early May we plan to open up much of our garden centre to allow you to choose your own plants. We will not be accepting online orders for herbs and vegetables this year as last year was a stressful and expensive disaster. Nearly half of the orders were not picked up. We will focus on serving you at the garden centre by extending our operating hours and arranging private shopping times for immune compromised individuals. Please email [info@makeitgreen](mailto:info@makeitgreen) if you need to arrange a shopping time.

We anticipate good availability of cell packs and 4.5" pots of herbs and vegetables. We are becoming concerned about some of the specialty herbs and veggies that we have carried over the last several years. Availability which was assured only a few weeks ago has been virtually non-existent. We do hope that we will have these available for you in May but like last year it seems that orders placed many months ago are unreliable. Some of this is due to labour shortages and some to shipping constraints as a grower in Niagara would rather ship to Toronto or London than Ottawa when demand is so high and the turnaround time is faster with shorter shipping distances.

One of our backup herb and veggie suppliers is largely shut down at this time due to a covid outbreak. Please remember that our staff are risking their lives to help you. We are risking our business and personal financial future being open. Some of you have been very abusive at the store, on the phone and in your emails. We understand that it has been a difficult year but their is nothing to be gained by taking it out on us and the stress that you are causing is making many of us wonder why we are even open this year.
