

## MAKE IT GREEN PERENNIAL PRICELIST 2021

This is our retail pricelist effective April 9, 2021. We have 6 primary perennial growers and a few others who supply some hard-to-find plants. Our first shipment will arrive during the week of April 12th. We expect over 30 shipments of perennials during the spring and several more in the summer. Not all the perennials listed below are in stock at the same time. This gives the growers a chance to make sure that all of their plants are alive and healthy before they send them to us. As they arrive at the garden centre we will try to update this list in a timely manner. Several of you have large lists and have asked us to gather all of the plants on your list before you come to the store to pick them up. While I understand the logic behind your requests, I know that, logistically, it's just not doable from our end. In the near future we will update this list to indicate which plants we intend to carry during the spring and which are special order. We do plan on having much of the garden centre open for in-person shopping beginning early May. You should be aware that, like gardens, garden centres change with the seasons. Creeping phlox is very available in April and early May but starts to sell out by mid-May. Hibiscus emerge from the ground in June (maybe late May this year due to the weather) and tend to be available in June and July and start to sell out by August. It is not possible or desirable to have every plant in stock at the same time. Our plant search has a wealth of information on most of the plants in this list but it doesn't tell you if they are in stock or not. Thanks and Happy Spring!

<b>BOTANICAL NAME</b>	<b>Common Name</b>	<b>PotSize</b>	<b>Price</b>
<b>ACANTHUS HUNGARICUS WHITE LIPS</b>	Bear's-breeches	1g/15cm	\$29.99
