

Shrubs and Evergreens on order and available for spring 2025, Apr 8

This is a list of all of the shrubs and evergreens we have ordered or can order for spring of 2025. If a plant you are interested in is indicated as ordered then you can email or phone and we will be happy to contact you when they're in stock. If you are concerned that an item might run out then you are welcome to pre-pay to make sure you will get what you're after. If you are interested in a plant that is available but not ordered then we require payment before we order the item. Please send us an email (info@makeitgreen.ca) and we will forward instructions. Comparing this year to the last few years since the pandemic, plant availability is up and many prices are down. Our list is fairly extensive this year. All the items on it are in good supply at this time. If you are looking for a plant and don't see it on the list then please let us know as there is a reasonable chance it is available if you order early.

Please consider our Make It Green card which can save you 10% on your purchases of plants and other products for a year. The card costs \$35 and makes sense if you are planning to spend more than \$350 on product at our store during the next year.

Terminology:

g: Pot size in gallons. The actual size is only around 70% - ie a 10 gallon pot is in fact only 7 gallons in volume
1.5g/2g: when plants in 1.5g and 2g pots are the same age they are the same price
3g/4g: when plants in 3g and 4g pots are the same age they are the same price
000cm: Minimum size in centimeters measured from the point where the plant comes out of the ground
000cmh: Width of a the "head" of a grafted standard - 30cmh means at least 30cm wide at the narrowest part
(std): grafted shrub or evergreen where the top part or head has been grafted to a compatible stem/rootstock
(treeform): trained shrub where only the strongest stem has been kept and grown on for a few years
(shrub): for plants also available as treeform used to indicate that it is not treeform
(clump): more than one plant in close proximity such as 3 stem Birch clump
(single stem): used where a plant might be commonly sold in shrub or clump form. Indicates one stem only
(low branched): single stem but branches start near the ground
x: A hybrid plant crossing two or more related species
(PW): Proven Winners brand
(FE): First Editions brand
(EV): Evison brand clematis
(BE): Bloomin' Easy brand
(DN): Day neutral - strawberries that bear fruit continuously throughout the season
(EB): Everbearing - strawberries that bear multiple batches of fruit throughout the season every few weeks
(EARLY,MID,LATE) - June or July bearing strawberries - large crop for 2-3 weeks
(or): own root rose, not grafted. We expect most of our roses are own root and will verify when we see them
(MALE): Produce pollen to fertilize female plants (berries, nuts, seeds, fruit). One can fertilize up to 8 females.
(FEMALE): Produce berries, nuts etc. after being fertilized by a male plant
(SF): self fertile - produce both male and female flowers on same plant
AU Austin brand Rose
HT Hybrid Tea Rose
FL Floribunda Rose
SH Shrub Rose
GR Grandiflora Rose
PO Polyantha Rose
CL Climbing Rose
